

Bag-in-Box

How to change a Bag-in-Box

- To disconnect the empty box:**
 - Press both white buttons on Quick Disconnect.
 - Pull Blue Ring back.
- Position box on shelf with perforation for spout on top.**
- Press in on the perforated lines with thumb.** Lift flap (don't tear).
- Reach into box and grasp Bag Spout.**
- Slide Bag Spout into circular hole.**
- Lock Bag Spout into place with Tab.**
- Rinse Syrup Disconnects in warm water.**
- Place connector onto Bag Spout.**
Push Blue Ring forward till both White Buttons lock.
- Place Box into dispensing position.**
- Operate dispensing valve to restore syrup flow.**

Note: Always keep BIB boxes off the floor. The bag is waterproofed, but eventually the glue joints can weaken and the container can become unusable.
